## | OUR HISTORY

The company was found in Calicut, Kerala, way back in 1960's, when the construction sector began in India. There was tremendous vacuum in the sector for efficient and speedy execution of core industrial projects. AP. BAVA and his brother Mr. AP.KOYA took up the challenge and got in to the mechanical construction works. As business expanded, founders decided to separate. Beginning with small and piece rate works, today the company achieved strength and sophistication to execute many projects together. After years of operation as Partnership form of company under the name "Well Erectors of New Engineering" and "AP Koya Engineering Construction" In June 2022, Our Company registered as per Companies Act of 2013, Under the Name "Well Erectors of Engineering Technology".
